CAMILA GRIMALDI

PROFILE

Architect with professional experience in Argentina and Italy across residential, hospitality and mixed-use projects. Skilled in design development, technical documentation and architectural representation, with a strong interest in the relationship between landscape, built form and spatial quality.

I bring a rigorous and methodical approach from concept through detailed resolution, with a clear emphasis on materiality and design intent. Highly organized and detail-oriented, I contribute effectively within collaborative and multidisciplinary teams and am particularly interested in innovative, technically driven practices where integrated thinking is central.
